20 September 2022

Dear Parents and Carers,

We have been highly impressed with the high quality of homework that students have been producing since the start of term. We are determined that 100% of students can be successful, and so would like to take this opportunity to clarify the homework requirements.

We would greatly appreciate your support in helping students to check the following on their self-quizzing homework so that they can be successful.

- One full page of A4 completed
- No gaps or empty lines, if a student finishes 10 before the page is up, they pick more and repeat them. This will support them to further learn the information.
- Answers are self-assessed and marked (tick if correct, cross and re-written if incorrect) with a green pen

We strongly believe that the time students spend learning these core facts will be a huge benefit to them. The information in the Knowledge Organisers have been carefully selected by the subject specialist teachers because it is the information needed to succeed in each subject, as well as being the information needed for end of term assessments. You will receive more detail on the end of unit assessments in due course. The best thing your children can do to prepare for them now, is to learn the information in their knowledge organisers.

If you have any queries around the homework process, there is a video showing this process available on the school website [here](#) or please do email me: gillettm@blaisehighschool.co.uk

To support your students in completing their homework, we will:

- Provide all students with a knowledge organiser, self-quizzing book, Sparx book and Sparx login
- Maths support for Sparx is available in room R08 every lunchtime
- Provide a staffed and supported homework club to support students with their homework from 3:00pm to 3:30pm every day in the library

Yours faithfully,

Mr M Gillett
Associate Assistant Headteacher
