Knowledge Organiser homework is based on self-quizzing. It is expected that you complete one page of self-quizzing, every day in your practice book. This should take around 30 minutes as a minimum. You need to self-quiz on the correct segment, based on your homework timetable. You should not leave blank lines on the page, including in between pieces of information. The information you self-quiz should be numbered in your practice book with the same numbers used on the Knowledge Organiser. Tutors will be looking for a full page of self-quizzing on the correct numbers of the Knowledge Organiser, as well as for green pen ticks/corrections and good presentation. On the top line of the page, you should write the subject which you are completing, the set and the date on the right hand side. Underline everything with a ruler. Your writing needs to be neat and legible. Tutors will check your practice book each morning. If we feel that any of these elements are not up to standard, you will be issued with a 30 minute, same day, detention. The knowledge that your teachers have selected directly correlates with the knowledge you are learning in class. You will be tested on this. The harder that you work, the more successful you will be.

<b>The guide to excellent self quizzing.</b>	
<b>GET READY</b>	Open your Knowledge Organiser find the subject and right set, 10 x" piece of information and definition". Open up your practice book and on the top line, write the subject which you are completing, the set which you are completing and the date on the right hand side. Underline everything with a ruler.
<b>LOOK</b>	<b>LOOK</b> and memorise the piece of information and definition. Repeat this process several times, until you are confident enough to use your practice book to write the knowledge down.
<b>COVER</b>	<b>COVER</b> your Knowledge Organiser with your whiteboard.
<b>WRITE</b>	<b>WRITE</b> the correct number from the Knowledge Organiser, the piece of information and definition from memory in your practice book. There are to be no blank lines in your practice book.
<b>CHECK</b>	<b>CHECK</b> the piece of information and definition. Using a green pen tick if both are correct.
<b>REPEAT</b>	<b>REPEAT</b> the steps above until you have recalled and written down all 10 pieces of information and definition within the set correctly (word for word). You may find that you need to complete a few green pen attempts before you recall the knowledge word for word. If this has not filled one full page of your practice book, go back and repeat the process again.
